

## **Greg Tewksbury**

Greg Tewksbury joined the Brio Living Services Board of Trustees in 2024. The board is delighted to welcome Greg, with more than 45 years of financial experience over the span of his career at the University of Michigan.

Retired in 2022, Greg held increasingly responsible roles at the University, including as treasurer, interim associate vice president for finance, vice chancellor for business and finance at UM-Flint, and, finally, as managing director for the Institute for Social Research. As part of his role as treasurer at the University of Michigan, Greg worked with the Board of Regents, Provost, and Deans to prioritize projects and determine potential funding sources. He played an integral part in presentations to rating agencies, which resulted in maintaining an AAA bond rating.

Greg is a graduate of Western Michigan University and Eastern Michigan University, with bachelor's and master's degrees in business administration. In 2006, Greg received Certified Treasury Professional designation and is a graduate of the Center for Creative Leadership "Leadership at the Peak" program in 2009. He is also a member of the Association of Finance Professionals.

Active in his personal and professional communities, Greg has served as a member of the Workforce Development Board for Genesee County and was the booster club lead for track and field at Dexter High School. Greg is currently a member of the Arbor Trust Client Advisory Council, as well as small group development activities at a local church.

Brio Living Services is grateful for the commitment and expertise Greg brings to the board.
